About Me

About Me

Hi! My name is Ayano Sasakido. I'm currently studying Certificate IV in Programming at TAFE WA. I'm passionate about learning new technologies and building projects that improve everyday life.

Through my coursework, I've been developing skills in languages like Python, C#, and JavaScript. I enjoy both frontend and backend development, and I'm always excited to learn more through hands-on projects.

This portfolio showcases some of the projects I've created as part of my studies. I'm looking forward to continuing my learning journey and growing as a developer.
